FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Labor and Industrial Relations** assume the proposal would not have a fiscal impact on their agency.

Officials from the **Department of Public Safety** assume that any costs associated with the proposal can be absorbed with existing resources.

Officials from the **Administrative Hearing Commission** anticipate that this legislation will not significantly alter its caseload. However, if other similar bills also pass, there will be fiscal impact. If there are more cases, or more complex cases, there could be a fiscal impact.

Officials from the **Office of the Attorney General (AGO)** states they currently defend the Crime Victims Compensation program when decisions are contested. The AGO assumes that any potential costs arising from the proposal can be absorbed with existing resources.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the Secretary of State's Office for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.
